

2018 Elongated Coin Design Contest Report  
By Danielle Kittredge

The 2018 Elongated Coin Design Contest theme was “Hidden Treasures.” The contest was announcement in the January TECNews and entries were due at the end of February. Reminders were sent out via the TEC Yahoo group, Facebook page, and enewsletter. The addition of the Facebook page and enewsletter had a direct positive impact on contest participation. A record number of 50 entries from 29 members were received via regular mail and email. This year's winning design was by Uni Marbutt (TEC #4278). All members received a rolled coin with her design with the July TECNews.

Let me know if you think it needs any more detail.
