

## 2019 ANNUAL REPORT – GOVERNOR DEE DRELL

This year has been eventful insofar as TEC is concerned. We kicked off the year at the World's Fair of Money with discussions on how to better the club, especially in adding members and in getting exposure in numismatic circles. My humble part in it was to finalize a brochure with an application attached and these were a success. We handed out many of them at the show, and then they were used throughout the year! Further evaluation of its use is expected at the Board meeting in Chicago. My second project was the development of a TEC club pin, made and presented to the club president for distribution. It really came out quite pretty and will be a TEC collectors item for years to come. The initial order was limited. Please ask about them, especially if you attend the Chicago WOF. It is a joy to serve this fun organization. Remember it is a hobby and should be for enjoyment. My thanks to Cindy, Terri, Tyler, Les, Uni, Sandy, Katie, Bob, and fellow board members for long, extra, hours and serious dedication.
