

My principal work for TEC during the last year has been an ongoing review of the “club” structure, including a review of IRS tax status. While progress on this front proceeded at a personally acceptable pace for half the year, I must report that the COVID pandemic has slowed this down, insofar as coordinating with others has been concerned. What we have gotten accomplished is a review of our documents and structure by me and by some other folks from whom I sought input. This issue will undoubtedly generate conversation at the upcoming Board meeting at the end of July. Thanks to Cindy who was able to provide materials for this review. I must confess that I shall miss seeing so many of you in light of the cancellation of the ANA convention. I am hoping that the next year will be more fruitful for all of us. In the meantime, I wish all of you in TEC good health. Stay safe, everyone!

Dee Drell, Governor
