

Historian's Report for 2020 convention

Quietly working behind the scene I have been reading all the emails and saving all important articles and saving them to computer and paper copy. Bob is doing a great job to send me articles and mags of different aspects of our club. I'm getting the coins and adding them to the physical books in their proper category. I haven't received any retired dies for a long while but I'm not so sure they need to be here. Since most of the officers are rollers, it's better off with them. Bob F. is good at sending me the 3 copies of TEC every quarter and I put them in a box designated just for them.
