Old Business

- Update on *Yesterday's Elongateds*: the book will have color photos and line drawings, as well as standardized abbreviations. The goal is to have it finished in the next year or so and may document as many as 3,000 coins. The timeframe covered will end at 1960.

New Business

- The Newman Numismatic Portal now contains the first 27 years of *TEC News*.
- A total of 55 pre-show orders were received to date. This was much higher than anticipated as there was no World's Fair of Money.

Acknowledgements

- Participants on TEC's first virtual meeting spanned across 11 time zones, from Hawaii to England. And an individual who joined only 3 days ago participated in the meeting.
- The mini-meet at Knoebel Park will take place on September 13.

Adjournment

- The meeting was adjourned at 4:55 pm. It was to be followed by the annual TEC benefit auction, conducted via Zoom online.
