

Governor's Report 2021

Dee Drell

It is hard to believe that we are nearing the end of my term as a Governor! What with COVID interruption we have indeed had DISRUPTION! I am glad we are slowly coming out of it and will again be able to meet up in person at WFOM! My work for TEC has continued in reviewing our TEC documents and to look at whether any updates to our documents are needed. We are looking at and have noticed some potential by-law changes which will likely be finalized during the next term. I plan to continue to help in the effort to be sure we are up to date! In closing let me add that my fellow board members are indeed an impressive bunch! Cindy has led us so very well, and all the other members have been active, not passive, in keeping TEC as a really fun and interesting organization! Being on the board has been a joy! Happy Collecting, everyone!
